AMERICAN NEUROTOLOGY SOCIETY
61st ANNUAL FALL MEETING
"FAB FRIDAY"
STUDY GROUP PROGRAM
JW Marriott LA LIVE – Los Angeles, CA
Diamond Ballroom 6-10

7:00 AM – 8:00 AM – VESTIBULAR STUDY GROUP

Brian Perry, MD & Benjamin T. Crane, MD, PhD – Coordinators

CASE PRESENTATIONS (5 MIN EACH)

Features of Dizziness in the Pediatric Patient
Deeya Bhattacharya, MS
Lindsay Fleischer, MD (presenter)

Fluctuating Low Frequency Hearing Loss in a Pediatric Patient with Vestibular Migraine
Deeya Bhattacharya, MS
Lindsay Fleischer, MD (presenter)

Electrovestibulography as a Window into Vestibular-Multisensory Network Function in a Pediatric Neurodevelopmental Context
Olivier Buteau-Verret, MD

Persistent Postoperative Dizziness in a Child with Cholesteatoma and Congenital Nystagmus
Benjamin T. Ostrander, MD, MSE

DISCUSSION

An Unusual Correctable Anatomic Cause of Dizziness
Mikayla Huestis, MD

Unmasking an Occult Third-Window Phenomenon following Decompression of a Cholesterol Granuloma
Joseph T. Vecchi, MD, PhD

A Case of Anterior Canal Canalithiasis
Emily R. Youner, MD, MPH

Massive Endolymphatic Sac Dilation, Pneumolabyrinth, and Long-term Uncompensated Vestibular Damage after Cochlear Implantation in a Patient with Enlarged Vestibular Aqueduct
Scott Shapiro, MD

Dizziness Handicap Inventory Burden in Vestibular Migraine Compared with Other Vestibular Disorders
Humza Sheikh, MS
Mohamed Elrakhawy, MD (presenter)

DISCUSSION

8:05 AM – 9:05 AM – FACIAL NERVE STUDY GROUP

Daniel Sun, MD & Rick F. Nelson, MD, PhD – Coordinators

CASE PRESENTATIONS (5 MIN EACH)

Facial Paralysis Secondary to Insidious Stylomastoid Foramen Lesions
Nedim Durakovic, MD

Glomus Faciale Masquerading as Facial Nerve Schwannoma: Diagnostic Utility of Facial Nerve Decompression and Biopsy
Jacqueline Weinstein, MD

Treatment of 35-Year-Old Patient with Facial Paralysis and Deafness following Incomplete Intracranial Tumor Resection
Hunter Elms, MD

MINISYMPOSIUM: FACIAL NERVE MANAGEMENT IN THE CANAL WALL DOWN VS SUBTOTAL PETROSECTOMY CAVITY

Partial Recovery of Facial Nerve Paralysis following Transcochlear Approach for Cholesteatoma
Emily Wong, MD

Dynamic Facial Reanimation for Progressive Facial Paralysis with an Exposed Facial Nerve in a Canal-Wall-Down Mastoid Cavity
Nadine Ibrahim, MD

MINISYMPOSIUM DISCUSSION

Bilateral Facial Paralysis in Suspected Melkersson–Rosenthal Syndrome: Evaluation and Surgical Management
Douglas J. Totten, MD, MBA

Facial Paralysis Revealing Facial Nerve Schwannoma in a Patient with a Non-MRI-Compatible Cochlear Implant
Kathryn Hardin, MD

9:07 AM-9:32 AM BREAK WITH EXHIBITORS

9:35 AM - 10:35 AM – SKULL BASE TUMOR STUDY GROUP

Courtney C.J. Voelker, MD, PhD & Richard K. Gurgel, MD, MSCI – Coordinators

CASE PRESENTATIONS (5 MIN EACH)

Triple-Modality Direct Eighth Nerve Monitoring at the Root Entry Zone Using a Custom Bipolar Electrode: Preliminary Experience in Lateral Skull Base Tumor Surgery
Yew Song Cheng, MD

Endolymphatic Sac Tumors Mimicking Common Skull Base Lesion
Douglas J. Totten, MD, MBA

Recurrent, Multifocal Inflammatory Pseudotumor after 13 Years
Peter Moon, MD, MS

Aggressive, Steroid-Responsive Cerebellopontine Angle Mass following Near-Total Vestibular Schwannoma Resection: A Diagnostic and Management Dilemma
Nadine I. Ibrahim, MD

QUESTIONS AND DISCUSSION

Endoscopic-Assisted Transcochlear Approach for Management of a Skull Base Epidermoid Cyst Involving the Petrous and Lacerum Carotid Segments
William G. Cohen, MD

Evolving Management of an Enlarging Paraganglioma in an Only Hearing Ear
Victoria Huang, MD

Giant Grade II Meningioma in a Third-Trimester Pregnant Patient: Navigating Competing Priorities
Maria F. Yepes, MD, PhD

Rare Pediatric Malignancy Masquerading as Vestibular Schwannoma
Madeline M. Nottoli, MD

QUESTIONS AND DISCUSSION

10:40 AM – 12:00 PM – WILLIAM HOUSE STUDY GROUP

Marc L. Bennett, MD & Daniel H. Coelho, MD – Coordinators

CASE PRESENTATIONS (6 MIN EACH)

Successful Management of Cochlear Implant Non-Auditory Stimulation with Placement of an Extracochlear Ground in the Round Window Niche
Simon Beatty, MD

Low Frequency Hearing Preservation Rates in Elderly Pre-Curved Electrode Cochlear Implant Recipients
Victoria Huang, MD

Novel Instrument for Intracochlear Schwannoma Removal with Simultaneous Cochlear Implant
Samantha Cerasiello, MD

Cochlear Implantation following Endoscopic-Assisted Intracochlear Schwannoma Resection: Non-Traditional Outcomes in Single-Sided Deafness
Brendon K. Warner, MD

DISCUSSION

CASE PRESENTATIONS (6 MIN EACH)

Modified Transcutaneous Osia 2 Technique Without Use of Implant Fixture

Victoria Huang, MD

Visualizing Cochlear Trauma in Real Time: Intracochlear ECochG and 3D CT Reveal Traveling-Wave Truncation from Basilar-Membrane Contact
Amit Walia, MD

ANSD and Bilateral IAC Stenosis: To Decompress, Implant, or Leave it Alone?
Madison Epperson, MD

DISCUSSION

EMERGING TOPICS IN COCHLEAR IMPLANTATION
Highlighted Presentation: Hearing Health Collaborative
Richard K. Gurgel, MD, MSCI
Sarah Sydlowski, AuD, PhD, MBA

Updates from the Chairman of the Board of ACIA
Daniel M. Zeitler, MD

NOON - 1:00 PM **LUNCH FOR ALL REGISTERED ATTENDEES** *(Platinum Ballroom A-D)*
