

Dear Program Director,

We are very pleased to share a new Neurotology Fellowship opportunity at the University of Colorado.

We invite you to please pass this news along to any residents in your program interested in Neurotology Fellowship training.

Program Highlights:

- 4 Otology and Neurotology faculty with a 5th joining in 2026
- Anschutz Medical Campus is a world class academic medical center where education is embedded in our everyday medical and surgical clinical practice, research, and scholarly endeavors
- High-volume of Neurotology and Complex Otology
- Opportunities for clinical, translational, and basic science research at University of Colorado
- Dedicated faculty committed to excellence in education and career-long mentorship

Applications for FY2026-2028 Fellowship Match are now open. Interested applicants should apply through SF Match.

Please contact me directly at stephen.cass@cuanschutz.edu if you are interested in any additional information.

Sincerely,

Stephen Cass, MD

University of Colorado Anschutz Medical Campus, Department of Otolaryngology Head and Neck Surgery

Meet the Faculty

Stephen Cass, M.D.

Professor
Neurotology Fellowship Program Director

Samuel Gubbels, M.D.

Associate Professor

Ashley Nassiri, M.D.

Assistant Professor

Yuri Agrawal, M.D.

Professor
Chair, Department of Otolaryngology
Head and Neck Surgery

University of Colorado Otolaryngology Department

NOTE TO APPLICANTS: Our program is in the final process of becoming ACGME accredited. Our application has been submitted and has had an application site visit. The Review Committee will meet on September 9, 2025 and we will know before the rank list deadline if we are approved. If approved we would accept our first Neurotology Fellow for the 2026-27 academic year. Our goal is to hold interviews and let you know the ACGME final decision before you enter your rank list. We are anxious to start our program and are hopeful we will be accredited.
