ABOUT

This webinar will explore the many ways surgeon-scientists fuel translational research. Our panelists will provide details on their diverse range of experiences in industry, academia and at the NIH and will answer questions on the ways surgeon-scientists can drive improvements in the treatment of otolaryngologic disease. Faculty, residents, medical students, pre-doctorate and post-doctorate graduate students are welcome.

SPEAKER PANEL

AARON TWARD, MD, PHD
Akouos, Inc
University of California,
San Francisco

SUSAN EMMETT, MD, MPH
University of Arkansas for
Medical Sciences
